The contract of the second sec

HOPE FOR HALL

Alumni work to combat Haiti's water crisis and save the children

MOMENT FROM THE PRESIDENT

Dear Grove City College Community,

G rove City College remains strong because we confront challenges and seek opportunities grounded in our founding principles of faith and freedom. We will continue along these prudent planning and operational paths, and **that is a promise**.

We would be unwise, however, to progress without concentrating some of our efforts on longer term evaluation and planning. To remain healthy, we need to scan the horizon for changes that may affect our students and our operations, while remaining true to our historic mission and values. We must also make informed adjustments in pedagogy and curriculum to ensure that we continue to prepare students to enter the 21st century workforce as learned, ethical and skilled adults. We must plan for facilities in which to teach technologies as yet unimagined. We would be poor stewards of this great institution if we did not look ahead and plan for future generations.

Six years ago, the College undertook its first strategic planning process. Results include enhanced student programming to equip our students to be leaders and responsible citizens; a greater focus on curriculum review; further integration of the Christian environment into our curriculum; continued focus on affordability; sustainment of optimal enrollment; improved business processes; enhanced physical plant; and a commitment to fundraising initiatives that can support the capital, operational and financial objectives of the College. We have also greatly upgraded our study abroad emphasis.

It is now time to look ahead another five years. To help us, a committee of faculty members, administrators, students, parents, friends and Trustees has been established to assess, develop and recommend priorities to the Board of Trustees. There is much to consider throughout this process. As you know, our federal government has completely overhauled the federally subsidized student loan program and enhanced federal grants. While our students can borrow from private lenders to obtain student loans, we must plan carefully so our tuition remains affordable and funding opportunities through our own awarded need-based scholarships and merit-based scholarship grants are abundant and accessible to our student body.

We have broadened our ethnic diversity, but we can do more to cultivate a community that reflects the ethnic, economic, social and cultural diversity of the world our students will enter upon graduation.

In addition, it is imperative to provide opportunities for students to work with faculty in research projects as we prepare them for graduate and professional programs. With no federal dollars for research initiatives available to us, we must find creative ways to provide these opportunities. And we must continue to examine our usage of technology and prepare to incorporate these advances in our curriculum and technology infrastructure.

These and many other topics will be reviewed during the strategic planning process. In spring 2011, the committee will present its initial recommendations to the Trustees for their ultimate plan completion. Once adopted, we will proceed with a plan that adheres to our mission while looking to the future.

With your continued help, we will prosper as a unique paradigm of higher education. Much work remains. Rest assured, we will do so within the affirming principles that make us great, and **that is a promise**.

The GeDUNK, a magazine published three times a year for alumni and friends of Grove City College, highlights campus news, student features and alumni achievements. Named after the on-campus gathering place / snack bar for students since the early 1950s, the word Gedunk made its way into the Grove City College vernacular when World War II Navy veterans returned to campus, bringing the term with them. The name stuck. For decades, the Grove City College Gedunk has been the place to come together to share news and ideas, and this magazine strives to do the same.

mailbox

'Family' issue a blessing

I wanted to write and let you know we had our baby, Bella Giovanna, on May 13, 2010. She is beautiful, but we were very surprised to learn she has Down syndrome.

It has been very topsy-turvy emotionally, but a couple days after I found out, I was sitting at my 5-year-old son's T-ball game when I opened the GeDUNK Magazine. I started to cry, not in sadness, but in amazement at God's timing when I saw the cover and feature stories were about Grove City College families who have had children with diseases, illnesses and even death.

In a time when I was feeling overwhelmed with sadness for the circumstances in which I found myself, I felt so thankful that

although Bella was born with special needs, she is healthy. I could not imagine facing the challenges that the families in that magazine have dealt with. There was also one story about a Down syndrome boy and what a blessing and joy he is. I don't believe it was coincidental that I got this right after finding out about our baby (especially since it came out right after we found out about Bella's special condition!!!).

God is good, and He is already providing me support in ways like this that make me know that everything will all be OK, that He has a master plan and Bella is just full of joy and love waiting to pour over us! I had chosen Psalm 139:14 as a theme verse for her even before she was born, which says, "I will praise You for I am fearfully and wonderfully made."

How little did I know how much comfort and peace that verse would bring me as I look at it above her crib each and every day. Anyway, I just wanted to share with you what a blessing this magazine was to me!

Welcome to a new look for the GeDUNK Alumni Magazine!

We've been working hard to make your magazine even better. In our annual alumni survey you told us that the GeDUNK is your favorite way to receive information from us. We'll continue to try and bring you great stories of alumni and campus happenings in a format that's both informative and fun. It also is a new way for President Dick Jewell '67 to share his "Moment for Grove City College." See his message on page 2.

This magazine focuses on the global Grove City College community. You may have noticed that our cover features a Haitian child rather than an alumnus. When you turn to the story on Deep Springs International, you'll see that the story of Michael Ritter '06 is really about the people of Haiti. It's also about his passion for facilitating the distribution of clean water technology so that the little boy on the cover can grow into adulthood. This story certainly pulls at my heart, and I know you'll appreciate the work of Mike and Deep Springs, an organization that started right on campus, with the help of one of our very own faculty members.

We'll be sharing campus news in a new section called "Upfront." Now located at the front of the magazine, these pages include an overview of what is happening at the College and in alumni circles. We include news about our faculty members, campus renovations, student academic achievements and Wolverine prowess on the athletic fields. In this issue, you'll read about how students are reaching out around the globe and making a difference long before they cross the stage at Commencement. Even our women's soccer team traveled to South Africa last summer! Our feature stories also highlight the global reach of our alumni body. You'll see a great map showing where our alumni live on pages 20-21. Grove City College has truly impacted the world.

We had another great Homecoming again this year. Thank you for all of you that made the weekend a success. It's not too early to mark your calendar for next year. Homecoming 2011 is Sept. 23-25. Speaking of saving the date ... check out the inside back cover. It's another save the date. We'll share more soon on what will certainly be a great weekend.

As always, I look forward to hearing your feedback, so please e-mail me at alumni@gcc.edu. Let me know what you think about the upgrades we've made to the magazine. Did you come to Homecoming? If so, how was it? What are your opinions about Grove City College? I do want to hear them, and I hope you'll take the time to share them with me.

So, grab that cup of coffee, put up your feet and enjoy this issue of our GeDUNK!

Homecoming reunites College friends, rekindles fond memories

Grove City College alumni traveled from across the country to join students and faculty in celebrating Homecoming this October. The weekend featured many favorite Grover traditions such as the Homecoming Parade, crowning of the 2010 Homecoming King and Queen and numerous reunions for classmates, fraternities and sororities and College organizations.

The theme, "Matters of the Heart: The Hearts that Mattered," rang true as friends reunited to rekindle fond memories of their days shared together in class, at the Gee and in the residence halls.

The Homecoming Parade, which wound through campus to the streets of Olde Town Grove City, was highlighted by the Wolverine Marching Band, Grove City High School band and of course, the wonderfully crafted floats!

At halftime of the Wolverines football game vs. Thomas More College, the 2010 Homecoming Queen, Rachel Paul '11, was crowned, escorted by the newly crowned king, Chris Marasco '11.

Reunion tents, set up on the main Quad and the Greek Village tents on lower campus near Wolf Creek, were also the meeting points for friends who wanted to relax in the shade in the midst of good company.

The 2010 Homecoming was surely a weekend to remember!

If you would like to see more photos from Homecoming, visit www.gcc.edu/alumni or the Grove City College Facebook fan page.

Alumni and their families gather in the Breen Student Union on Saturday morning for the continental breakfast.

Rachel Paul '11 and Chris Marasco '11 were named Homecoming Queen and King.

Welcome home!

who made the trip back to Grove City College for this year's Homecoming celebration.

What a wonderful weekend it was to catch up with current students, lifelong friends and cherished mentors. The bustling activity of campus was truly a remarkable sight to behold.

Thank you and we look forward to seeing you again next year, Sept. 23-25, 2011!

Award recipients have big impact globally

This Homecoming, three recipients of the Jack Kennedy Memorial Achievement Award and one Distinguished Service Award-winner were recognized for not only their significant contributions in their fields, but also to their positive impact to society on a global scale.

Alumni Achievement Award-winner Maj. Gen. Robert C. Kane '79, returned recently from his assignment in Baghdad, Iraq, where he served for the United States Air Force.

Dr. Donald A. Shockey '63 is an internationally recognized expert in the fracture of materials and structures.

James P. Van Eerden '85 has produced several movies with international themes, including "War Child" and "Running with Sahara." He is also board chairman of the H2O Africa Foundation.

Distinguished Service Award-winner and College Trustee Stanley M. Johnson '60 has been very involved with the International Education Office at the College. The office was dedicated to his wife, Karen, during a Homecoming ceremony.

If you are **interested in nominating a qualified individual** for the Jack Kennedy Memorial Achievement Award and Distinguished Service Award, please **contact Melissa MacLeod '96**, senior director of alumni and college relations, at (888) GCC-GRAD or by e-mail at alumni@gcc.edu.

Pop Quiz!

Can you name this sorority?

The first five to respond with the correct answer will receive a prize! Contact the Communications Office at news@gcc.edu.

Alumni Council names five new members

Five alums have been named to the Grove City College Alumni Council for the 2010-11 academic year. Each member will serve a three year term. The new members officially began their service in July.

Pierce Babirak '09 will now be a part of the Alumni Council's Communications Committee. He is currently a seventh- and eighth-grade math and science teacher with Teach for America. He is pursuing his master's in education at the University of Pennsylvania and graduated with a degree in political science.

Babirak was president of his senior class, involved in theater, swimming, Rho Rho Rho, Tau Alpha Pi and studied abroad. His sister, Jane '14, is currently enrolled at the College.

Lisa (Laurich '82) Donovan will also serve on the Communications Committee.

Donovan and her husband William '81 have two children, Anne and Claire.

Donovan was Senior Woman of the Year, a member of Zeta Zeta Zeta, women's tennis, Mortar Board, Orchesis and ODK. She graduated with a degree in communication arts and a minor in French. She received her master's from Carnegie Mellon University.

Robert Beckett '79 will work on the Alumni Council's Finance Committee. He is currently the president of Robec Distributors.

Beckett earned a degree in accounting from the College, while a member of Nu Lambda Phi and competing in wrestling.

Beckett and his wife, Carrie, have two children, Kristin and Bobby. Lila (Thomas '79) Riley, a new member of the Alumni Council's Student Alumni Task Force, was the 1978 Homecoming Queen.

A mother of four, Jeffrey '02, David, Timothy '10 and Ethan, she has roots to Grove City College, including her brother Terry Thomas '73, sister-in-law, Natalie (Martini '73) and daughter-in-law, Emily (Guthrie '02).

She graduated with a degree in history and was a member of Gamma Chi and ODK.

Jeff Hinebaugh '89 has also been named to the Student Alumni Task Force Committee. He is currently a partner for Dinsmore & Shohl, LLP.

Hinebaugh and his wife, Erika, have two children, Hans and Analise.

His sister, Laura (Hinebaugh '92) Igoe, and brother-inlaw, Peter Igoe '91, were both graduates of the College.

Hinebaugh received a degree in accounting and minor in history from the College and then went on to earn a J.D. from the University of Michigan.

Hinebaugh was involved in Round Table, Scroll and Key, ODK, New Life, Phi Alpha Theta, Delta Mu Delta, Men's Governing Board, The Collegian, Phi Tau Alpha, soccer and Mortar Board while at Grove City College.

If you are **interested in nominating an individual** for the Alumni Council, please **contact Melissa MacLeod** '96, senior director of alumni and college relations, at (888) GCC-GRAD or by e-mail at alumni@gcc.edu.

Alums in print

Look no further than a book written by a fellow classmate!

Here are two of the latest books written by Grove City College alums.

"Power Perfected in Weakness," written by the late Christopher J. Klicka '82, with a foreword by Joni Eareckson Tada, encourages readers to believe that "God can sustain you through anything." In the book, Klicka illustrates this truth by telling of his struggles and blessings in the final years of his life.

Klicka passed away on October 12, 2009. An attorney, spokesman, lobbyist, husband and father, Klicka was also an

author with two more books in progress when he passed.

"Power Perfected in Weakness" can be purchased by e-mailing freshgrace.org@gmail.com.

"The Serene Chronicles" by Kelly (Costello '07) Chaney is the story of a college freshman, Celeste, who spends her days going to class, working on homework and trying to maintain a long-distance relationship with summer boyfriend James. However, unbeknownst to her classmates, Celeste is a rare and treasured jewel to the Neromati, an ancient race of people with powers of telepathy, telekinesis and mind control. Celeste gets closer to the dangerous world of the Neromati and farther from normalcy until a mysterious young man makes her question everything.

The Alumni Office continues to accept books written by alumni authors for display and use in the Carnegie Alumni Center. Please contact us at alumni@gcc.edu if you would like to donate a book, or stop by and check them out!

Look to your left, look to your right ...

Did Nancy Paxton provide a smile, words of encouragement or in some way impact your life as a student?

If the answer is "YES!," please consider donating to the Nancy (Lee '54) Paxton Scholarship Endowment.

Created by her former students, friends and family, this need-based scholarship will provide assistance to an eligible student of any class year if he or she meets financial need requirements as determined by Board policy.

Gifts can be made online at www.gcc.edu/Giving or by mailing a check to the Development Office of Grove City College. Paxton will be notified of all donations made to the scholarship (name, not amount). If you choose to write Paxton a personal note, a College representative will even deliver it to her. *Thank you!*

Unsolved Mystery

This picture is full of unanswered questions. Who are these unidentified people? When was this photo taken? And why are they posing in the shrubs? This picture and many other historical items are now on display and being preserved by the College. Do you know the answers to this mystery or have old pictures, varsity jackets, Greek pins or memorabilia from your College days that you would like to donate? If so, please contact the Alumni Office at alumni@gcc.edu today!

Alumni, including First Lady Dayl Jewell, experienced the sights of Santorini Harbor, Greece (above), and even made time for ice cream cones to cool off (bottom left). Another group also enjoyed the beauty of Versailles in April (bottom right).

Alumni Travel Program opens doors to world's most beautiful destinations

The Alumni Travel Program, in its inaugural year, has provided alums with the opportunity to see many of the world's most treasured attractions and historic landmarks.

This year, alumni followed Apostle Paul's footsteps, witnessed the picturesque landscapes of Greece and Turkey and experienced the elegant beauty of France. The program provides the platform for alums to interact with unique cultures abroad and to reconnect with friends of the College.

If you are interested in seeing the world and creating lasting memories and friendships in the process, contact the Alumni Relations Office at (888) GCC-GRAD or by e-mail at alumni@gcc.edu to learn more about the Grove City College Alumni Travel Program.

A little taste of Americana

This January, take a bite out of the Big **Apple with Grove City** College alums and Drs. James and Diane Dixon! Enjoy Broadway shows, sit-down dinners and a tour of New York City. In June, experience the mystique of the **Southern Cultures** through a grand tour of Virginia, South Carolina, **Georgia and Tennessee** with Dr. Collin Messer! Jump on your chance to be a part of these wonderful trips today by contacting alumni@gcc.edu.

The country of love, the city of lights and the skyline of ash: 2010 alumni trip to France

We came from Pennsylvania, Texas, Michigan, Florida, Virginia, South Carolina and Andorra. We came together as strangers expecting to experience springtime in Paris. We didn't expect to be caught in the world's most debilitating transportation shutdown in history. And we didn't expect to build friendships that will last a lifetime.

In April 2010, Grove City College launched a new iteration of her alumni travel program. Decades earlier, a travel program organized by Drs. Fred and Hilda Kring and continued by Señorita Cindy Forrester provided opportunities for alumni and friends to travel the world, experience faraway cultures and reconnect with the College. With the creation in 2004 of the Office of International Education and the leasing of an educational facility in Nantes, France, the Alumni Relations Office realized the time was right to reintroduce a travel program. Professors Mark and Deb Reuber, who manage the Nantes program, would serve as trip organizers and our guides in France. Twenty-two alumni, parents and friends of the College signed on for this inaugural travel adventure.

Five days into our trip, news of the eruption in Iceland of the Eyjafjallajökull volcano was not of immediate concern. It wasn't until the next day that we realized we would not be returning to the States on April 18 as planned. Our hotel in Paris allowed us to extend our stay each day as we anxiously checked news reports, visited government agencies and attempted to manage the challenges of our situation. Answers were elusive and in most cases non-existent.

On Tuesday, April 20, after a hectic metro ride to an Air France office in Paris, we were informed that we could get our entire group of travelers on one of the few flights to the United States that day, if we could get to Charles De Gaulle Airport immediately. Emotions were strained as we raced back to our hotel to pack, grab taxis and make the trek to the airport. Time was critical. Could we get on the flight before the volcanic ash cloud shifted and the government again closed the airspace?

We did. And while we were only able to make it to Atlanta, Ga., that day, we were relieved to be at home. During our 10 days together, this group of travelers witnessed the historic architecture of Europe, savored French food and wine and admired some of the world's best known art, but something even more important happened. With Grove City College as our bond and through meaningful conversation, much laughter and some tears, a bus load of individuals became a French family.

Although I can't promise the same level of adventure experienced in this initial alumni trip, a second trip to France is planned for 2012.

Jeff Prokovich '89, vice president for advancement, pictured with his wife, Gwen (McDonald '89).

Other 2010 Alumni Events

MAY 27

Alumni employees of the Timken Corporation enjoyed a luncheon courtesy of Grove City College Alumni Association. Canton, Ohio

JUNE 5

Pittsburgh Pirates spokesman Joe Klimchak '91 and other alumni enjoyed Skyblast fireworks at the Alumni Game at PNC Park. Pittsburgh, Pa.

JUNE 21

Alums teed-off at the Grove City College Alumni Golf Outing at beautiful Shannopin Golf Club. Pittsburgh, Pa.

SEPTEMBER 18

Alumni experienced a farewell tour of Phantom of the Opera at the Benedum Center. Pittsburgh, Pa.

Log on:

www.gcc.edu/ alumnievents E-mail: alumni@gcc.edu Call: (888) GCC-GRAD

2010 alumni events

West Mifflin, Pa. - A record crowd ready for thrills and a delicious picnic gathered for Grove City College Day at Kennywood Park on July 30, 2010.

Pittsburgh, Pa. - Alumni who currently work for BNY Mellon collected to share a luncheon provided by the Alumni Association on Sept. 10, 2010.

Charlottesville, Va. - Chairman of the Board David Rathburn '79 hosted alumni from across Virginia and President Richard '67 and Mrs. Jewell for golf and a barbecue at Glenmore Country Club near Keswick on July 31, 2010.

Denver, Colo. - Incoming freshmen and families joined for a summer picnic hosted by Trustee Jody Mathie '77 (back row, far left) at her home on Aug. 12, 2010.

New Grover Gatherings Packages!

Have you ever wondered how many alumni are in your area and wished you had a way to connect without having to wait for an "official" event? Just want to do something as casual as hosting a group in your home? Then we have the package for you!

Grover Gatherings is a "packet" provided by the Alumni Office to help facilitate informal gatherings for members of our alumni association. While we can't always be everywhere at once, we can make certain you have every opportunity create your own gathering even when we can't visit your neck of the woods!

In the package, Grove City College will provide blank nametags, "register to win" forms, a giveaway item, a list of alumni in a radius from your event location and College information and handouts! The College will also provide assistance with picking an event location and will post the event on the College calendar of events on the Web!

So don't wait! Be the first in your area to host a Grover Gathering! Just e-mail the Alumni Office at alumni@gcc.edu or call (888) GCC-GRAD to get the process started! Let the fun begin!

New York, N.Y. - Alumna host Kathie Brandt '85 invited New York City area alumni and friends to a Manhattan skyline reception at her home on June 6, 2010.

Jacksonville, Fla. - A summer barbeque was on the menu for alumni at John '80 and Patty (Strauss '79) Otterson's home on June 6, 2010.

Student snaps award-winning photo of Ugandan girl

In July of 2009, Hana Yasaki '12 and 10 other Grove City College students set out to Gulu in Northern Uganda to serve various ministries that reached underpriviledged children and families affected by war.

Yasaki witnessed stories of God's love and felt the satisfaction of providing care for those in need. She never expected to return with an award-winning photo for The Plain Dealer's third annual Travel Photo Contest.

Yasaki and her mission team encountered many of the largest smiles and loudest laughs from kids who have endured lives many cannot even imagine.

Witnessing the joy radiating from these children, despite the horrors they have seen, was life-changing and a blessing to be captured, if even only in a photograph.

Hope of Gulu, Uganda, hesitates to take part in a soccer game with her peers.

One day during the threeand-a-half week trip, while the children were playing games outside, Yasaki caught a glimpse of a quiet, yet exquisite Ugandan girl from the corner of her eye. The child was hesitant to interact with the other children and kept a distance from Yasaki and her team.

The minute she focused her camera lens and snapped the child's photo, Yasaki's heart skipped a beat.

The photo captured an intensity in the child's eyes that was sad yet beautifully captivating, giving the viewer an ounce of her own strength to overcome life's most difficult obstacles.

The child's name? Hope.

Hana Yasaki '12

Companies can ttyl through students' "real world" application

A aron Mininger '11 and Addison Mayberry '11, with the assistance of 2010 graduate Ashley Christian Straw and the cooperation of Dr. Dorian Yeager, professor of computer science and mathematics, completed a "real world" application to help companies interact with costumers more effectively through instant electronic communications.

The application, built under the guidance of two senior staff members from B-Three Solutions, utilizes text messaging through mobile phones to provide more personalized customer service. The application, known as B-Three Mobile Connect, will be implemented by B-Three Solutions as one component of a project for a future client.

"A system like this can help to expand target audiences through instant communications."

Aaron Mininger '11

Freshman women study in MAP North residence hall.

College renovates MAP North

The class of 2014 is experiencing a whole L new MAP North! This summer, Grove City College renovated all 118 freshman women's residence hall rooms in MAP North. The \$4.5 million project is part of the College's ongoing work to update its facilities.

The project outfitted MAP North with new windows, furniture, energy efficient lighting, flooring, fire protection sprinklers, electrical wiring and a quiet studying area.

The MAP North revamp also addressed the residence hall's restrooms, walls, ceilings, plumbing, heating, ventilation and closets.

The project was completed before the new freshman class came to campus in August.

Harbison Chapel Kimball organ praised

he College received a citation from the L Organ Historical Society recognizing Harbison Chapel's Kimball organ as an instrument of historic merit and worthy of preservation during a ceremony in late June. The chapel's organ, dedicated in 1931 and known as the Frances St. Leger Babcock Memorial organ, is one of few remaining in original condition without any alterations and the first instrument at the College to receive a citation.

College names new trustees

 \mathbf{C} ix new members to the Board of **O**Trustees have been named by the College this fall. The new members include Donald L. Balla Jr. '93; Dr. Alejandro Antonio Chafuen '84; Theodore W. Johnson; Robb M. Jones '75, Esq.; Eric M. Pillmore; and Dan D. Sandman, Esq. Welcome new trustees!

Creation of Wolf Creek North Trail

Put on your hiking boots and favorite flannel, it's time to explore the outdoors of Grove City College! Construction crews are nearing completion on the Wolf Creek North Trail. The project, which started in 2009 to preserve creek banks and establish a nature trail, was privately funded by the College, the Richard King Mellon Foundation. The Foundation for Pennsylvania Watersheds and local philanthropist Joseph D. Monteleone.

The North Trail connects Rainbow Bridge and East Main Street, cutting through a section of campus that has remained wild in recent years. The project will provide a public nature area for fishing, walking, biking and picnicking; restoration of 1,000 to 1,500 feet of stream and about six acres of land: and a portion of the land adjacent to the creek planted with native foliage.

Tweet from @GroveCtyCollege

weeting on Twitter is twerrific! Say what? This October, Grove City College began "tweeting" on the social networking site Twitter. The messages and updates, known as tweets, seek to inform the global community of news and events at the College. The tweets, many times informal, also provide a medium for current and prospective students, as well as alums, to interact with the College in a more relaxed fashion.

Through Twitter, the College can provide instant communication to any Twitter user in the world, providing a great resource to friends local and abroad.

Follow Grove City College on Twitter at @GroveCtyCollege.

What do you think of the new MAP North renovations?

"No more Pepto pink bathrooms!"

-Kimberly (Boyd '96) Jacobs

"It looks clean. I'm a fan!" -Kat Landry '12

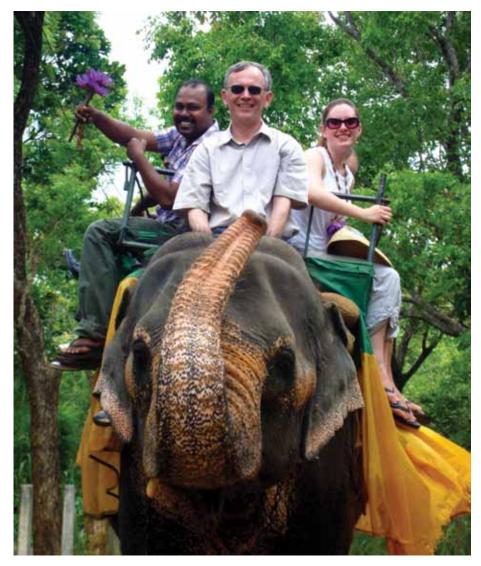

"When I was a freshman in North, it seemed like it was brand new and now it's been renovated! Time flies! Loved my time at GCC!" -Judy (Hill '71) Koysza

"I love it! I have a lot of room, so it's nice!" -Shaina Williams '14

"Definitely brighter and nicer looking. I can notice the difference in the bathrooms, they needed repair!"

-Jocelyn Blanton '11

Dr. lain Duguid (center) rides an elephant with daughter, Hannah, and a Sri Lankan native.

Professor enjoys wild ride teaching Sri Lankan pastors

This summer, Dr. Iain Duguid, professor of religion, experienced beautiful Sri Lanka while teaching local pastors how to preach from the Old Testament, using the book of Zechariah as the basis of his study. Duguid, accompanied by his assistant, Wayne Houk '07, and daughter, Hannah, sought to provide the Sri Lankan pastors with a deeper understanding of the gospel.

The team's journey led them to the hill country Nawalapitiya and Baldaeus Theological College in Trincomalee, which is in proximity to the rubble left from the 26-year civil war between the Sri Lankan army and Tamil Tiger rebels that ceased more than a year ago. In Trincomalee, Duguid worked with the minority Tamils, of which 20 percent are Christian. Duguid found this an ideal location for his training, since many pastors in the area come from Pentecostal church backgrounds, but had limited theological education.

Duguid also had the opportunity to preach each Sunday in different churches, through the assistance of interpreters, translating each sermon into Tamil and Singhalese.

New Faculty Fun Facts

Michelle Bruns, assistant professor of physical education and head women's basketball coach, scored 1,645 career points for Southwest Minnesota State University.

Lisa Cantini-Seguin, associate professor of communication studies, won an Emmy for a documentary produced for WQED TV in Pittsburgh.

Dr. Lorie Johnson-Osho, director of multicultural recruiting and retention and assistant professor of education, was selected as a Woman of Excellence by Pittsburgh Renaissance Publications.

Todd Gibson '02, assistant professor of physical education, head men's and women's track and field coach and assistant football coach, was a receiver on the Grove City College 1998 PAC Championship football team.

Timothy Sweet '85, assistant professor of entrepreneurship, created a website for individuals eager to buy and sell antiques.

Dr. Lorie Johnson-Osho, director of multicultural recruiting and retention and assistant professor of education

Johnson-Osho to coordinate College's multiculural recruiting initiative

Grove City College welcomes new Director of Multicultural Recruiting and Retention and Assistant Professor of Education Dr. Lorie Johnson-Osho. In her new role, she will be responsible for coordinating the College's multicultural recruiting initiative specifically in western Pennsylvania with a broader but limited national focus.

Johnson-Osho has spent more than 15 years in higher education administration, most recently as assistant dean in the School of Arts and Science at the University of Pittsburgh, where she managed recruitment and retention activities designed to improve the quality and diversity of the institution.

Pisano provides platform for music discussion online

Associate Chair of Music and Fine Arts Dr. Joseph Pisano '94 founded the Music Education Professional Learning Network in late July, a website specifically designed for music educators, pre-service music teachers and teaching musicians.

The website promotes discussions about important topics facing today's music educators by incorporating BuddyPress and WordPress social networking platforms, while integrating Twitter and Facebook.

Bright, Grove Clty College sponsor robotics competition

Dr. Mike Bright, chair of the department of electrical and computer engineering and professor of computer science and electrical engineering, and Grove City College sponsored the inaugural BEST robotics competition for local middle and high school students this fall. The competition featured "Mall Day" and "Game Day" events at the Ross Park Mall on McKnight Road, Pittsburgh, and Grove City College Arena in the Physical Learning Center, respectively.

The six-week BEST (Boosting Engineering, Science and Technology) competition was free to contending participants and schools, with all materials donated by the College's Wolverine Hub and funded by other local companies. Winners of the competition will advance to Auburn, Ala., to compete against other regional winners.

Brenner reelected VP of Tri-Beta

Professor of Biology Dr. Fred Brenner was reelected as vice president of the northeast region of the Beta Beta Beta National Biological Honorary at the Biennial National Convention.

As vice president, Brenner is responsible for all Beta Beta Beta chapters in the northeastern United States, the largest of six geographic regions in regards to chapters. The northeast division is divided into four districts with each district director reporting to Brenner.

Brown receives APEX Award

Professor of Communication Studies Dr. Daniel S. Brown received an APEX 2010 Award for his work with the newsletter of the Religious Communication Association, "The RCA NEWS," in early July. The award was presented in the "Most Improved Newsletter" category.

The Awards for Publication Excellence (APEX) program, now in its 22nd year, is considered one of the most prestigious associations for professional communicators.

Wagner earns national award

Professor of Physics Dr. Doris "DJ" Wagner was named the recipient of the Outstanding Society of Physics Student Chapter Advisor Award. The achievement was officially announced by the Society of Physics Council in Washington, D.C,. in early October.

The national award recognized Wagner for her leadership, student leadership development, and support and encouragement that has enabled her Society of Physics Students chapter to remain a successful program. Only one award is given annually and it is the most prestigious award an advisor can receive.

Faculty members earn doctorates

Class of 2010 alums are not the only recent graduates displaying their new diplomas on their office walls. Five faculty members received their doctoral degrees this summer, including Dr. Wayne Biddle '87, director of human resources and business operations and guest lecturer in business; Dr. David DiQuattro '02, instructor of philosophy; Dr. Michelle (Adams '88) McFeaters, assistant professor of accounting; Dr. Kimberly Miller, instructor of communication studies; and Dr. Scott Powell, assistant professor of business. Congratulations doctors!

sports

Football

The Wolverines feature a 16-player senior class in 2010, along with two dozen other letterwinners. Grove City boasts eight players who have earned All-PAC honors during their career. In 2009, senior offensive tackle Pete Polesnak achieved First Team All-PAC distinction while senior kicker Craig Bicehouse, junior linebacker Jason Ferguson and junior tailback Blaine Miller, below, all earned Second Team All-PAC distinction.

Casey Schmidt '14, center, is one of nine freshmen on the women's volleyball team.

Volleyball

The 2010 Grove City squad has a decidedly different look from previous seasons as 11 of the 14 players are in their first year of intercollegiate competition. The Wolverines' nine-player freshman class is one of the largest in recent program history.

Senior Kim Budd and sophomore Elisabeth Willits are team co-captains. Budd owns three varsity letters and ranks eighth all-time at Grove City with 1,307 digs. Willits is Grove City's active career leader in kills and blocks.

Head coach Susan Roberts entered the season with 582 career wins as a head volleyball coach, the most of any Grove City College coach.

Cross Country

Grove City's men's and women's cross country teams are looking to continue their respective rises in the NCAA's Mideast Region while also maintaining their dominance of the Presidents' Athletic Conference.

On the men's side, two-time NCAA Championships qualifier Garrett Cichowitz returns for his senior season and is joined by fellow fourth-year performers Gordon Grob and Cordell Oberholtzer.

The women's team features three 2009 All-Mideast performers in senior Emily Pierce and sophomores Sara Fisher and Ella Smith.

Grove City will compete in the PAC Championships October 30 at Waynesburg University. The men's squad is in pursuit of its 20th all-time league title and the women will challenge for its 22nd straight conference title.

Women's Tennis

Grove City returns nearly its entire starting lineup this fall after the Wolverines made their second straight trip to the NCAA Tournament last spring.

Senior Natalie Walten is the returning conference Player of the Year. She is joined by

classmates Elissa Beale and Kimberly Peterson.

Six of the Wolverines' 11 players this year have a last name that starts with a "B": junior Reena Barnett, Beale, junior Christina Bedi, junior Megan Bennett, freshman Katie Brown and junior Emily Buurma.

Men's Soccer

A rmed with a 10-man senior class – the program's largest in recent memory – Grove City will look to return to the top of the conference and to the postseason in 2010.

Seniors Evan Moore and Chuck Witt are team cocaptains. Moore is in his second season as a team captain after earning that distinction as a junior. Witt, meanwhile, is a two-time CoSIDA Academic All-District honoree.

Senior Austin Bernal and junior Brian Eckenhoff joined Witt on the Academic All-District squad in 2009. The Wolverines also earned the National Soccer Coaches Association of America Team Academic Award last season.

Grove City is also a recent recipient of the NSCAA's Ethics Award.

Women's Soccer

Now in its 19th season of competition, the women's soccer program has solidified its place among the region's elite. After an undefeated run through the conference in 2009, the Wolverines will look to return to the postseason again this fall.

Grove City features seven returning starters and five seniors who have been part of helping the Wolverines achieve four straight winning seasons.

Senior Emily Ostlund is a three-time All-PAC and two-time CoSIDA Academic All-District honoree. Also back are fifth-year seniors Courtney Sicher and Hannah Yang and seniors Hannah Hertweck and Laura Novosel.

Put me in coach, I'm ready to play!

Todd Gibson '02 and Michelle Bruns have been named head coaches for the Grove City College Wolverines.

Gibson will have the opportunity to lead the men's and women's track and field teams. Gibson, also the outside linebacker coach and strength and conditioning coordinator for the football team, recently completed his second season as an assistant for the track and field team, coaching eight distance runners to Presidents' Athletic Conference titles and four to new school records in two years.

The Wolverines men's track and field team placed second at this year's PAC Championships while the women earned fourth place. Overall, the men's program has won 17 conference titles in 26 years while the women have captured seven of the last 12 league crowns.

Bruns will enter this season as the sixth women's basketball coach in College history. As a player, she earned Daktronics Division II All-America Honorable Mention as a senior at Southwest Minnesota State University, along with North Central Region Co-Player of the Year honors.

Bruns comes to the College after working as an assistant master trainer/performance enhancement specialist at the Army Center for Enhanced Performance in West Point, N.Y., since January 2009.

The women's basketball team will look to build off the momentum gained from their 8-6 conference record in 2009.

Wolverines in Africa, soccer's big stage

Last summer, South Africa was home to the 2010 World Cup, vuvuzelas and the Grove City College women's soccer team. The Wolverines traveled to the country for a two-week trip to compete against local high level teams and evangelize to many African prisoners and children. Go Wolverines!

GLOBAL OUTREACH: Around the World

"Ou pale Kréyol?" Dark eyes widen expectantly. Michael Ritter 'O6 shakes his head and responds without cracking a smile. "Non. Ou pale?" Teeth flash as the children dissolve into giggles, having just heard the tall American converse fluently in Creole. Clearly, he spoke their language – and of *course*, they did too. Ritter grins slightly. Soon, the children trail Ritter's footsteps along the dusty road lined with tin shelters, clamoring for attention. Hands push aside cloth doorways and faces appear from inside the dwellings as residents recognize their visitor and call out greetings. Ritter stops and chats.

By Rebecca Miller '04 | Photography by Rachel Turner

Months after a 7.0 magnitude earthquake rocked Haiti and killed an estimated 230,000 people, reminders are everywhere. In the capital city of Port-au-Prince and the nearby town of Lèogàne, crumpled frames of buildings still sit forlornly, twisted steel supports sticking out from crushed concrete. Thousands of tents and shelters pack what were once open fields. And there is loss, stories of loved ones presumed dead, their bodies never found.

It's sobering. But those smiles and giggles are also reminders. They remind Ritter of his purpose, and they give him hope.

M ore than two years ago, Ritter came to Haiti to help run Deep Springs International, a fledgling non-profit born from a Grove City College business plan. The mission: Combat poverty, illness and unemployment through a sustainable safe water program in rural communities.

Its first target was Haiti, the poorest country in the Western Hemisphere; it also has the highest rates of infant, under-5 and maternal mortality, according to UNICEF. Sixty-seven percent of the rural population lives on less than \$1 a day.

The project launched in 2006, with an initial focus on education. Deep Springs first launched a health curriculum in Les Cayes; the coursework was co-written by Grove City education majors. Ruth (Dykstra '07) Entwistle, one of the founding members, spent time in Haiti assisting with that particular phase.

But things came together in 2008 when the founder of "Gadyen Dlo" – "water guardian" in Creole – a successful safe water program based in the northwestern town of Jolivert handed the technology over to Deep Springs to expand throughout rural Haiti. Ritter researched the project for his master's in public health at Emory University.

The system uses a five-gallon bucket with a spigot and chlorine. Families fill the bucket and pour a capful of chlorine into the water. Thirty minutes later, they have clean water, regardless of the source. Although it costs about \$10 to bring a new family into the program, fees assessed to the families remain low – about \$2, making it affordable for even the poorest households.

"Our main goal is to save kids' lives in a sustainable way," Ritter said.

E xpatriates from all over the world are a common sight around Lèogàne these days, with disaster response and humanitarian organizations flooding into the small Caribbean nation.

Expatriates like Ritter, however, are not so common.

He values relationships – an important part of Haitian life – and it's apparent in his everyday interactions with his friends, coworkers and strangers. Even in the humid heat, he follows the Haitian dress code – jeans, short sleeved shirts and sandals. He has few possessions, with the exception of a growing library of books on Haiti's history, politics and culture.

He is fluent in Creole, is well-versed in the social customs and has so assimilated that he seems Haitian – he even has his favorite egg sandwich street vendor on speed dial.

"I never would have thought that I would end up in Haiti," Ritter said reflecting. But the summer in Jolivert was affirming. "I realized how challenging it was, but also how rewarding it could be ... and I enjoyed it."

Working in developing countries wasn't always Ritter's goal. He is from a Grove City family (his parents, Jeff and Karen (Schuliger), are both Class of 1979 and his sister, Amy, graduated in 2009). He studied molecular biology and at one time considered becoming a doctor. But several events opened his eyes to other possibilities.

It started with a book.

In the summer of 2004, he was buying a Medical College Admission Test study guide when Rob Ruck's "The Tropic of

The town of Lèogàne, located near the earthquake's epicenter, saw some of the worst devastation. The homeless moved to camps like this one crammed into a soccer field. More than six months after the disaster, aid organizations are still debating the best methods to transition into a more long-term solution for housing.

Ruins still ring the Place Saint Rose in Lèogàne, where Michael Ritter '06 is based with Children's Nutrition Program. At right, Ritter and his Haitian staff traveled into the mountains above Lèogàne to distrbute Gadyen Dlo buckets to health workers, who carried them back to their villages on foot or by mule.

Baseball: Baseball in the Dominican Republic" caught his eye. A four-year shortstop for the Grove City baseball team, he was captivated.

It spurred him to help organize a couple of baseball-focused mission trips through SCORE International to the Dominican Republic with some of his teammates. He also took part in a medical mission trip there that was led by former Grove City College professor Dr. Mark Weber.

Those trips were a turning point. He realized a medical career wasn't for him – but he did want to work in developing countries. "His overriding goal ... was to help people," dad Jeff said. "He wanted to make a difference in people's lives."

During his senior year, Michael was approached by Dr. Timothy Mech, professor of entrepreneurship and finance, with a proposition. Mech and some students, including Entwistle, were working on a non-profit business plan called Deep Springs International, and they needed someone with a science background to research water purification. Already interested in an international career, Ritter joined the team. They won the non-profit category of the College's annual Business Plan Competition. Armed with the startup money, Ritter, Entwistle and Mech decided to pursue non-profit status, and after some discussion, they agreed to launch in Haiti.

"People sometimes looked at us and felt that it was a long shot," Mech recalled. "To start something like that, when none of us had any expertise in water and none of us had any expertise in Haiti, seemed like an outrageous idea."

But things began to fall into place – at just the right time, it seemed. Emory's public health program, and its connections to the Centers for Disease Control, helped to open doors in the country. Deep Springs acquired Gadyen Dlo, a program that could have conceivably taken many years to develop.

"It's been really rewarding for me to see how this has all opened up," Jeff said. "It's incredible."

Moving to Haiti was a bold move,

and Michael's perseverance can't be underestimated. "He realized that the stakes were high, and he wasn't going to allow that to fail," Mech said.

Growth was steady, but slow. At the beginning of 2010, 8,000 families were in the program. But two things changed that: a new partnership with a U.S.-Haitian Catholic parish program to help run their water programs – and the earthquake.

R itter remembers Jan. 12 vividly. Since he moved to Haiti in 2008, he had essentially lived out of a hiking backpack, traveling in rural areas, working to expand Gadyen Dlo.

That day, he was in the mountains near Boudin training technicians for the parish water program's transition. The first tremor hit, rocking the rectory's second floor where he was working on his laptop. He sat on the floor until the shaking stopped.

The dust was too thick to make it down the stairs at first. He went out onto the balcony and heard screams from the hillsides – that's when he knew it was an earthquake. Finally, he slipped outside.

The Internet was down so he couldn't reach anyone, but he didn't think anything of it. Nothing in Haiti ever made the news anyway.

That night, he slept outside with dozens of others who had deemed their homes unsafe. Aftershocks rolled through. All he had was a thin sheet to pad him from the ground, and it did little to shield him from the chilly night air.

Thousands of miles away, his family waited to hear from him. No one was sure where he was. Jeff thought he might have been traveling through Lèogàne, which would have put him close to the epicenter.

The memory of waiting, frantically e-mailing back and forth with Michael's contacts, still affects Jeff – "It was tough," he said after a pause.

The next day, the parish had Internet restored, and Michael logged into his e-mail. Hundreds of e-mails and Facebook messages clogged his inbox.

Haiti had made the news.

Ritter was one of a relatively small number of foreigners already on the ground before the earthquake. He began assisting with disaster response, helping aid flights reach the makeshift landing strip outside of Lèogàne and tapping into his network of contacts to assist with other needs.

Within hours of the earthquake, Haitians were building shelters from scraps they found.

"People just continue to react and find a way," Ritter said. "That's something that's very inspiring and impressive about the Haitians. They do find a way."

But millions were homeless. They needed shelter, food – and clean water. Deep Springs helped Chattanooga, Tenn.-based Children's Nutrition Program of Haiti and other organizations to scale up Gadyen Dlo to 17,000 households in and around Lèogàne. (Ritter joined with Children's Nutrition Program following the disaster, sharing housing and resources in Lèogàne – he no longer lives out of his backpack.)

As part of the response, Ritter was also asked to lead a small hygiene promotion group for the United Nations, coordinating with organizations like Samaritan's Purse and the Tearfund.

LANXESS, a global chemical firm Jeff

works for, donated 4 million Aquatabs, offered at no cost to the new households. Jeff, a Deep Springs board member, volunteered time following the earthquake to help coordinate efforts. Deep Springs also had assistance from global non-profit Save the Children.

They recently transitioned from the Aquatabs back to chlorine.

M arie Maude Demosthene wipes a gold-and-black patterned cloth across her brow. Even at 9:45 a.m. in the mountains above Lèogàne, the heat presses in. She began her journey three hours earlier on foot from her village of Miton. The way is too mountainous for vehicles, and a rented mule costs about \$7.50.

She and her four assistants load up 25 new Gadyen Dlo buckets to distribute. It is a long trek back home.

A community health worker since 1983, trained to be a midwife and assist with vaccination clinics, Demosthene began working as a water technician after the earthquake.

She is part of an extensive network of community health workers in the Lèogàne area – with her help and that of others in the network, Deep Springs has been able to mount the large-scale expansion.

Other organizations specialize in water purification. But the key difference between those programs and Deep Springs, according to Ritter, is a focus on peer-topeer monitoring by technicians like Demosthene.

That focus came from his graduate research. "People know that they shouldn't be drinking untreated water, and they know there are options available," Ritter said. Accountability is the key.

The program relies on a Haitian staff that sells the locally produced chlorine to the families, follows up with household visits and routinely tests the water. Chlorine refills are necessary once a month and cost about \$1.

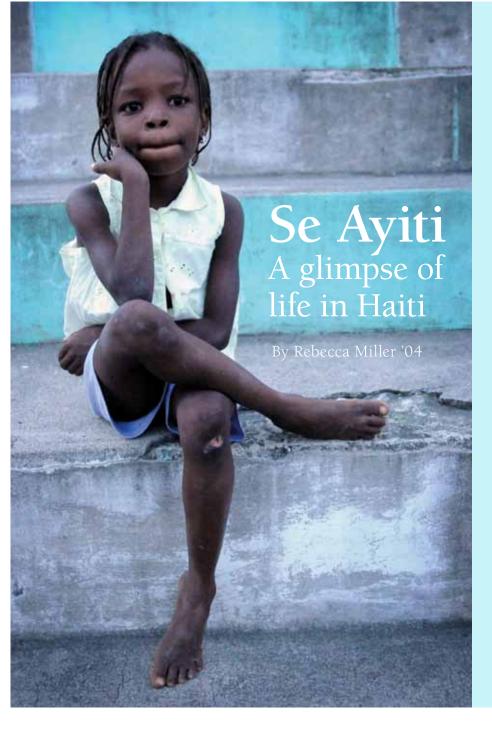

"People who live in the mountains, in very remote areas – just the fact that someone comes to visit them really goes a long way," Ritter said.

In the process, it gives Haitians jobs and a steady income that increases depending on the volume of families served. Now, more than 32,000 families use the Gadyen

"There's something that's very inspiring and impressive about the Haitians. They do find a way."

Haiti wasn't what I expected.

I wasn't expecting the softly melodic "bonjou" and flash of a quick smile even as the greeter scrambled around a pile of treacherous concrete rubble. Or the burst of full-throated laughter from women gathered in the shade of a tin-roofed shelter. Or the jubilant cries of young boys running into a pot hole-riddled street in the heart of Port-au-Prince, eager to start a game of soccer as a torrential downpour soaked them to the skin.

I saw passion and strength in Haiti – despite, or perhaps because of, the circumstances.

Se lavi. Se Ayiti. That's life. That's Haiti. Armed with my recorder and notebook, I traveled there in August to see Deep Springs International's work firsthand. This is what I found: On paper, Deep Springs is an intriguing project. In reality, it's making the difference between life and death – and Michael Ritter '06 is a driving force.

Ritter exemplifies what makes Grove City College a special place: the people. Whether it's students, faculty, friends or alumni, there is no shortage of unique individuals who are making an impact on the world around them.

There is aching complexity in the rebuilding efforts. Agencies must address everyday needs, without losing sight of creating lasting change.

It's a tall order in any disaster zone, let alone one with such a turbulent history.

If anyone can meet the challenges and bring that lasting change though, it's people like Ritter, his Haitian staff and those working with Children's Nutrition Program.

I know why Grove City College is unique. But if I hadn't stepped off that plane one hot August morning, I wouldn't know what it is that makes Haiti and its people unique. For that, I'm thankful.

Dlo system. The goal is to reach 50,000 by the end of the year.

"We had a vision of having water treatment generate sufficient revenues not just to cover the cost of whatever the product was but also to cover the cost of educating the community in the use of it," Mech said. "It looks like we have achieved that (in Jolivert), which is one of the first times in the world that it's ever been done in public health programming."

To cut down costs, Deep Springs produces its own chlorine and uses a Haitian manufacturer of buckets. They only import the spigots.

The system works – and outside organizations have noticed. The World Health Organization identified Jolivert as the world's most successful communitybased household chlorination program in sustainable health promotion. In 2008, Deep Springs was awarded a Templeton Freedom Award for Social Entrepreneurship. The Centers for Disease Control and Haiti's ministry for water and sanitation have also recognized the program's success.

A mother and infant watch a health worker test their Gadyen Dlo.

L aughter peels out across a camp just outside of Lèogàne one muggy afternoon. Barefooted boys scramble after a volleyball-turned-soccer ball, giggling as Ritter sprints after an errant pass.

In the midst of the tragedy, he finds hope in their laughter, and satisfaction in helping families like that of Dieudonne St. Hilaire, a 36-year-old mother of two teenagers. Seated under the shade of the trees nearby, she tells her story, her voice smooth and matter-of-fact.

After the earthquake destroyed her family's Lèogàne home, they moved into an empty field and made a shelter from a bed sheet and four poles. A few weeks after the earthquake, they moved into the camp and were given a Gadyen Dlo system.

St. Hilaire has seen her family's health improve. "Gadyen Dlo has made me well," she said through translation. "I have confidence in it."

That same confidence is echoed by Demosthene. Even after just a few months of working with Gadyen Dlo, she has seen families grow to trust the system.

It's heartening for Ritter as he and Deep Springs look ahead. The goal is to provide clean water to rural Haiti, approximately 900,000 households.

It is a big task. In time, the goal is to turn Gadyen Dlo completely over to the Haitians. The program is already largely Haitian run, from bucket distributions to household visits.

"We realize that's a big vision. We're not there yet. There are a lot of things that need to happen to get there," Ritter said. Amber Parker Photography

Eventually, Deep Springs could take Gadyen Dlo to other parts of the world. But Ritter doesn't see himself leaving Haiti anytime soon – the need is too big.

"I really do believe that I'm doing what God wants me to be doing now, and it's very rewarding."

Threads of Change

When Caroline Koopman '01 and friends Jacob and Carrie McKean relocated to Beijing, China, in 2007, they were deeply impacted by the extent of poverty they encountered in the village of Qingyundian.

"The more time we spent in the village, the more we came to have a heart for the women who lived there," Koopman said.

But the trio wanted to do something more than simply start a charity; they "wanted a means to help these families rise out of poverty." Their personal contact with a talented village seamstress inspired them in 2009 to launch Scarlet Threads, a venture that provides women in rural China the opportunity to earn a steady income for their families. Koopman and Carrie McKean designed the initial product, colorful retro aprons, and have since added girls' dresses, handbags and hats. Local seamstresses craft all the products and receive compensation at prices they have set themselves. The majority of Scarlet Threads' sales have originated online through

word-of-mouth social networking via avenues like its website
(scarletthreads.org) and Facebook page. Additional publicity has
come from offering blog giveaways and selling the products
through other online boutiques, including buildanest.com.
"It gives us tremendous exposure with those readers,"
Koopman said, "and makes us part of a social network of
people with similar values."

Analysts say this phenomenon of using online social networking to generate exposure is growing in popularity among businesses of all kinds. A 2009

McKinsey Global Survey found that 69 percent of respondents who used social technologies in their businesses benefitted from more effective marketing, a lower cost of doing business and higher revenues.

Koopman, who returned stateside in June, is now working to further expand Scarlet Threads' reach by finding new places to market the products around the country, such as specialty boutique shops.

Have Fulbright, Will Travel

David Frick' 09 and his wife, Alicia, right, recently returned from China. Above, Jonathan Bond '04 clerked for Supreme Court Justice Antonin Scalia.

It's easy to consider college a mere passport to a job or graduate school. But Jonathan Bond '04 and David Frick '09, both Fulbright Full Grant winners, discovered that Grove City College's emphasis on following a path of God's design – no matter how long or circuitous – prepared them for unexpected opportunities.

"Doing the Fulbright and going to law school made me appreciate that [Grove City College's] ... focus is not so much on getting you to your destination, it's who you will be when you get there," Bond said.

The Fulbright, established in the 1940s by the U.S. State Department, places about 1,500 fellows a year in foreign countries. Winners develop a research program and study at an institution in the country of their choice. The rigorous competition includes evaluation by a faculty committee, consideration by the State Department's Institute for International Education and the host country and final selection by the J. William Fulbright Foreign Scholarship Board. Six Grovers have won Fulbrights as students since 2000. The most recent Full Grant recipient, Luke Juday '10, is currently in Botswana.

Bond, a political science major at Grove City, completed his Fulbright at University College London. He initially planned to study the effect of inherited legal traditions on the performance of transitioning economies, particularly in the Soviet Bloc and Eastern Europe. While abroad, he shifted focus to the constitutional court's development in transitioning economies. Frick, an accounting major, studied In his course of study, Bond theorized that constitutional courts created in former Communist countries significantly varied in activity depending on the citizens' receptiveness to a legal system. He credits former Grove City College Dean Dr. Charles Dunn for putting the Fulbright on his radar. "You can't do these things without tons of help and inspiration," Bond said.

Frick returned from China in July. He said the Fulbright also caught him by surprise – and that Grove City College faculty were his main motivators. Prior to his senior year, Frick

"It's amazing what you can learn when you step out of your culture."

small business practices in China and was affiliated with Zhejiang Normal University.

Both men flew home during their programs to marry. Bond is married to alumnae Jocelyn (Evans '04). Frick's new wife, Alicia, dove into the Chinese culture, cooking on a hot plate; they didn't have a stove.

Bond's plan for the future was simple: college, law school, the bar, practice law by 2007. But the Fulbright opened "amazing doors" between 2005 and 2010, and he took the bar only last summer. After studying in England, Bond earned his J.D. from George Washington University Law School, graduating first in his class. He spent two years clerking in Washington, most recently for Supreme Court Justice Antonin Scalia. He'll soon join a D.C. law firm.

"It was this wonderful turn of events I hadn't expected," Bond said. "It showed me that God's plans are better and that his will is worth following." interned for an accounting firm and received a job offer. "But I felt like God wanted me to do something else before going into the work world," he recalled. Career Services Director Dr. Jim Thrasher '80 urged him to leave his options open, yet Frick knew most Fulbright recipients specialize in the humanities – not in his field of accounting.

Frick hoped to go to China, whose Fulbright branch avoids business majors. Nonetheless, Dr. Erik Anderson, the College's Fulbright program adviser and assistant professor of mechanical engineering, encouraged Frick to apply, he said, "by example." Before coming to Grove City, Anderson earned a Fulbright to cultivate cultural exchange via engineering in Canada. "If he could make it work, I thought I could try," Frick said.

Fulbright also has a language requirement. Grove City started offering Chinese courses in 2007, and Frick signed up for two years. His three sisters (one of whom is a Grove City sophomore) were adopted from China, and two still speak Chinese. "I took the classes because I thought I could understand them a little more," he said. Providentially, he believes, he took the exact number of courses necessary to qualify for a Fulbright.

"It's amazing what you can learn when you step out of your culture," said Frick, who grew up in Indiana, Pa. "You have the ability to be critical of your own culture, as well as the one you're in, to see what you have that's ridiculous ... and what the other has that – though the country isn't developed in the world's eyes – is good."

Frick immersed himself in Chinese culture and browsed shops, conducted surveys and observed day-to-day business practices. He hypothesized that most Chinese business owners do not use cash registers due to the strong familial connections: Businesses are run and operated by family members.

"They don't need as many business controls that we have here," he said. "They trust their families, but not others." For this reason, Frick and his wife worked to build a few precious friendships in China. Now in Pittsburgh, Frick is working on a Duquesne University MBA. In January. he will start as an accountant with the firm where he interned.

The Fulbright opened Bond's eyes. "I saw how much was out there, how roots could run deep in a lot of different directions," the Ohio native said. "At the same time, it was striking to see how small the world is. You learned to think from a global standpoint, rather than what's going on in front of you."

Barbara (Azalos '69) Price, Ph.D., will join the faculty of economics and business administration at the University of Debrecen in Hungary this spring as part of a Fulbright Lecturing Award. Her grandparents emigrated from Hungary, so she is grateful for the chance to learn about the country's history and culture. She noted, "Debrecen holds particular interest for me as it is the center of the Hungarian Reformed Calvinism with which I was raised."

David Jetter '00 earned a Fulbright Binational Business Grant to Mexico in 2000. He said, "Working and studying in Mexico was a challenging and rewarding experience. God repeatedly took care of me every step of the way, always reminding me of his faithfulness and provision." He is a project development attorney in Houston.

Crossing E

Immersing yourself in a fascinating foreign culture, imparting knowledge to students and forming unexpected friendships are just a few of the perks of teaching overseas. Grove City alumni like Matt '01 and Laurel (Mastnjak '01) Green, Abe Powell '06 and Jill Kirkstadt '90 dot the globe, educating students and perhaps learning even more about themselves, and the world, along the way.

While teaching overseas is an exciting adventure, Matt '01 and Laurel (Mastnjak '01) Green may be the first to tell you that it's far from easy. "Let's just say that it is the single most challenging experience of our lives thus far," says Laurel. They currently are the only non-Muslims at the School of Modern Skills, a very conservative Islamic school in Dubai. The Greens teach children in grades 8 through 10. Laurel teaches girls, while Matt has only male students.

While teaching in Dubai, the Greens have learned to be sensitive to the school's censorship of things like pigs, Valentine's Day, immodest clothing, anything that promotes an Israeli political agenda or anything that criticizes Islam.

"We discovered that something that is considered cute and innocent in American culture (i.e., a cuddly piglet) can be deplorable and offensive in another," Matt says. "Teachers of younger grades spend hours at the beginning of each term blacking out the word 'pig' or ripping out pages that contain pictures of pigs in every student's book."

Laurel's fellow female teachers cover their hair, while others even wear veils. Because of this, Laurel says she can sometimes feel "a bit exposed." She dresses carefully each day before heading off to teach. "It is also always interesting seeing the outfits that Laurel comes up with each morning in an effort to keep every millimeter of her skin covered," Matt says. "Even if it is 125 degrees Fahrenheit and rising, you can bet that she will be bundled up from head to toe with baggy clothes and a neck scarf!"

While other alumni may not encounter such extremes at their schools, there is typically one challenge that is universal – the language barrier. Jill Kirkstadt '90,

Laurel (Mastnjak '01) Green, above, and her husband, Matt '01, teach at a conservative Islamic school in Dubai and travel extensively, including to India. Far left from top to bottom, Abe Powell '06, Jill Kirkstadt '90 and the Greens have all experienced the challenges and rewards of teaching overseas.

currently a teacher in Malta, faced that obstacle while serving as a Fulbright Exchange Teacher to Turkey in 1993-94. "I think you have to speak the language to really feel comfortable in a different country and to have a better understanding of the culture," she says.

Abe Powell '06, who just completed four years teaching in China with English Language Institute/China, can relate."When you go overseas and spend time over there living, it's really very humbling," he says. "You're very much like a child. You don't speak the language, you don't know the culture."

Perhaps the most rewarding aspect of teaching is connecting with students and colleagues – and discovering surprising similarities between cultures. The Greens found this to be true in Dubai. Girls adore "High School Musical," Hannah Montana and the Twilight series – while the boys prefer horror and action movies. The children listen to hip hop, while others consider themselves "emo" and wear black eyeliner, skull jewelry and Converse.

"All the Western media influx has, of course, caused some misunderstandings," Laurel says. "I have been asked if American high school is like "High School Musical," to which I answered that American students don't normally break into song randomly in the cafeteria."

Powell - who taught at Lanzhou City

University mostly to students from one of the poorest areas of China – found satisfaction in broadening students' perspectives and opening their minds to new ideas. Specifically, he enjoyed classes like Western Culture – which taught Greek culture through postmodernism – and a course that awkwardly translates as "The English Movie," during which Powell says films like "Beauty and the Beast" and "Dead Poets Society" were student favorites. "Blood Diamond" – about illegal dealings surrounding the African diamond mining industry – taught students about an issue they likely knew nothing about.

"Most students don't show much interest in foreign affairs," he says, adding if students read the news, it's typically about Western countries.

Having taught in Malta at the Verdala International School since 1996, Kirkstadt interacts with students who are well-traveled and speak four to five different languages. She currently teaches IB (International Baccalaureate Program) Standard and Higher Level Mathematics and Theory of Knowledge. "Every day is a joy," she says.

These alumni all recognize the incredible impact that diving into a new culture can unearth. "I hope I'm more tolerant and open-minded," Kirkstadt says. "I have a much greater respect for and appreciation of cultural differences."

The Greens have the opportunity to

witness firsthand an often misinterpreted culture. "Teaching in a Muslim school in a Muslim country has given us a unique experience that most Westerners don't have, in that it has demystified the religion and its people," Matt says. "There are many misunderstandings between the Muslim world and the West, and we hope that our presence in Dubai can help build bridges and ease tensions. We hope to set a good example for America and for Christianity in general."

"We've had an opportunity to see the face of Islam, and to us, these people are now our colleagues and friends, Laurel adds. "It hasn't been easy, but it has been worth every minute." The couple began their third year of teaching in Dubai this fall.

The Greens were fortunate to also teach in Spain for two years. "We had an amazing time there," Laurel says of Sevilla, one of the two cities where they taught.

Powell feels blessed to form relationships with students and colleagues. He also says the experience with ELIC has broadened and deepened his knowledge. "God's grace is more real to me in the experiences I've been through than it was four years ago."

While Powell has completed his time with ELIC, his time overseas is far from over. He and his wife, Rachel, met in China as colleagues, married in August and plan to return to the East and work with Wycliffe Bible Translators.

"I never would have thought I would be teaching a former Muslim on a small island in Indonesia."

Up in the Air

Their first conversation lasted through four countries. Their life's journey leaves them speechless. Rebecca (Wyatt '00) Hopkins and her husband, Brad, met on a bus traveling from Germany to Italy while the two were volunteering for Military Community Youth Ministries in Europe. Today, the pair continues to evangelize abroad, both in the heart of the jungle and above the treetops.

"My husband had a dream to be a pilot, but wanted to fly with a purpose," said Rebecca. "When he discovered [Mission Aviation Fellowship], he decided it was a good fit to be able to be both a missionary and a pilot." Mission Aviation Fellowship uses airplanes, computers and other technology to overcome barriers to the Gospel in isolated areas around the world, including the couple's home, Kalimantan, Indonesia, where they live with their children Renea and Evan.

"My husband flies small (single-engine) airplanes into remote villages in the Borneo rainforest, landing on short, dirt airstrips to serve the villagers and the church there," Rebecca said. The work, though extremely dangerous and tiresome, helps countless Indonesian pastors, government officials and the infirm.

Brad seeks to "develop encouraging

relationships with believers and nonbelievers" in the air. Rebecca volunteers at a community clinic, teaches English from home and shares Christianity with Muslim friends on land.

"Indonesians talk about religion often and are welcome and open to discussing their and our beliefs," Rebecca said. "We feel safe and welcome to discuss how God is involved in our lives with our Indonesian friends."

Recently, as she taught Muslim neighbors about the Trinity, she remembered lessons from the Calderwood Hall classrooms.

"I pulled from what I learned in my Bible classes, specifically a class that Dr. (Dale) Bowne taught about the books that John wrote," said Rebecca, who has a political science degree.

She appreciates the remarkable path her life has taken, from the Quad to the Ring of Fire. "I never would have thought I would be teaching a former Muslim on a small island in Indonesia about what I'd learned!"

By Michael Baker '09

Fall 2010

On the Move

Ryia (Miller '02) Ellis already knows she will be moving next year – she just doesn't know where yet. That's because her job as a foreign service officer with the U.S. State Department requires her to relocate every few years to places all around the world.

While she admits it can be a hassle having to pack and move all her earthly possessions so frequently, part of the reason Ellis first applied to become a foreign service officer (FSO) was to have the adventure of living and working overseas.

"I have gotten to meet some of the most fascinating people, from novelists, feminist activists, lawyers and politicians, to scientists," Ellis said. "I have yet to encounter a job that gives you such a wide and diverse view of the world."

Ellis, who has served in Peshawar, Pakistan, and is now stationed in Tel Aviv, Israel, has undertaken jobs ranging from an embassy press deputy to a vice consul handling visa issues. FSOs (also called diplomats) serve in more than 265 locations and are responsible for building bridges between the United States and other nations. But getting recruited as a FSO is no small task. The multi-step application process is rigorous, and Ellis said she failed the entry exam the first time, later passing it twice as she waited for the State Department to process her security clearances and hiring paperwork. (Anna (Chambers '04) Rice also successfully passed the screening process and spent time as an FSO in Geneva, Switzerland.)

These days, Ellis is looking forward to her next assignment when she'll be reunited with her husband, Jeff, (who is a FSO stationed in Kabul, Afghanistan) after the State Department assigns them to the same location – someplace in the world. "The beauty of the foreign service is there is always a new beginning somewhere right around the corner."

Ryia (Miller '02) Ellis at the Ilana Ghoor museum in Jaffa, Israel. Below is the view from her apartment window in Tel Aviv.

class notes

KEEP IN TOUCH!

We want to keep in touch with you electronically! If you have an e-mail address, or have recently changed your address, make changes through the Alumni eCommunity or contact us at alumni@gcc.edu.

e: Alumni eCommunity Class Note. More info at www.gcc.edu/alumnicommunity.

Gerald (Jerry) Anderson and his wife, Joanne, celebrated their 50th wedding anniversary with family and

friends at a dinner party in their new residence at Whitney Center in Hamden, Conn. The party was held May 1, 2010.

1954

C. Donald Gates was honored by Ross Township (Pa.) for 22 years of service as its solicitor. He also was honored by the Allegheny County Bar Association of Pittsburgh as a 50-year practitioner. Attorney Gates maintains his full-time law office in Ross Township. He is an active at Memorial Park Church, where Dean Weaver '86 is senior pastor.

1957

Dick Ridenour made his first stage appearance in 55 years when he played Horace Packard in July's "Last Hurrah of Horace Packard." The serio-comedy was presented at the Sonoma (Calif.) Community Center. The story follows an 80-year-old man who escapes hospital confinement, evades a police manhunt and sets out to run a restaurant.

1961

Jim Urner enjoyed an eight-day Galapagos Islands cruise in Ecuador. It was on his "bucket list" and he recommends this as a place to visit, climb, hike and snorkel.

Clarence Hickey wrote "Send for the Doctor," a non-fiction biography of Dr. Edward Stonestreet, a 19th century physician and Civil War surgeon. Hickey portrays Stonestreet in his work as an interpretive docent with the Montgomery County Historical Scociety and a re-enactor with the Society's speakers bureau.

Reunion

1967

Dr. James Deitrick received the Outstanding Professor Award from students in the Master in Professional Accounting program at The University of Texas at Austin. Deitrick received his award during the 2010 Commencement. The Rev. Lee Beckes and his congregation celebrated 25 years

SUN CITY | Alumni gathered in Sun City/Hilton Head, S.C., in April. Row 1, from left, Ed Lighthiser '52, Norma (Whitaker '53) Lighthiser, Jane (Luse '53) Deakin, Barb (Blomquist '52) Kocher and Judy (Kish '62) Kittner. Row 2: George McCartney '56, Linda (O'Neal '58) McCartney, Jim Foraker '58, Jim Giuntoli '67, Larry Kittner '60, Bill Kocher '53, Charles Benton '59 and Anne (Forrest '70) Hamilton.

SPRING ISLAND | Pan Sophic fraternity brothers and spouses enjoyed a June reunion at the home of Chuck '57 and Maggie (Parks '59) Ford on Spring Island, S.C. From left: Ford, Steve Stepanian, George McCartney '56, Bill Schneider '58, John Werren '58, Jim Foraker '58, Page Glasgow '57 and Jim McCann '59.

Fall 2010

SOUTHERN CHARM I Tennessee friends spent an evening in May at the home of Ed and Pat Ziobro '59 in Loudon. Row 1, from left: Ziobro, Dick Knight '64, Barbara (Davies '55) Boyer and Earle Boyer '56. Row 2: Joe Moran '63, Bill Lemmon '65, Perry Anthony '63 and Alyce (Anderson '63) Anthony. Missing from photo: Linda (Neuman '64) Knight. All are residents of Loudon, except for the Morans visiting from Warner Robins, Ga.

of Beckes' leadership in April 2010. He was called as pastor of First Presbyterian Church in Bradford, Pa., in 1985. He provided leadership in construction of the Bradford Ecumenical Home, Chapel Ridge nursing facility, establishment of the Friendship Table providing free meals to the needy, and Bradford's chapter of Habitat for Humanity. Beckes resides in Bradford with his wife, Audrey.

The church he serves has an historic connection to Grove City College in that it was the home church of Joseph Newton and Mary Anderson Pew during the years they lived in Bradford; it was the community in which their son, J. Howard Pew (Class of 1900) was born, and the church in which he was baptized.

1968

Robert Harvey, president/CEO of the Seattle Metropolitan Credit Union and former chairman of WesCorp, will be retiring in April 2011. He is also past chair of the Washington Credit Union League and the African American Credit Union Coalition.

1970 | REUNION YEAR

Geoff Shuster and **Bruce Roginson** and their wives took a trip together to Valles Caldera in the Jemiz Mountains, New Mexico. Both couples live in Albuquerque. **e**

1971

James O'Harrow retired after 27 years as district superintendent of the Claysburg-Kimmel (Pa.) School District. He began teaching instrumental music, later becoming assistant junior high school principal, then high school principal. In retirement, he continues to teach a leadership class in the superintendent's program at Gannon University, and oversees the intern program.

Patsy (Wonnell)

president and

chief executive

officer of the

Philadelphia-

Porter.

1972

C

With the Foundation, she oversaw the creation of a mentorship program for burn survivors, three advisory councils and programming for senior citizens. 1973 George Collins has been selected

based Burn Foundation, was elected to the board of directors of the Federation of Burn

Foundations. The Foundation is an association of related organizations serving communities nationwide.

by his peers for inclusion in the 2011 edition of "The Best Lawyers in America" in the area of personal injury litigation. He is a partner in the Litigation Group at Bouvier Partnership and also was recognized by the Erie County (Pa.) Bar Association for his 25 year membership. He resides in Snyder, N.Y., with his wife and family.

Christine (Pavlik) Zuzack

received the 2010 Distinguished Service Award from the Eastern Association of Student Financial Aid Administrators Zuzack is vice president of the Pennsylvania Higher Education Assistance Agency's State Grants and Special Programs.

1974

Dan Cardone was named a 2010 Sports Ethics Fellow by the Institute for International Sport and the Positive Coaching Alliance at Stanford University. The fellows are recognized for leadership in the areas of fair play and sportsmanship. Cardone is athletic and activities director at North Hills School District in Pittsburgh.

Nancy Collins

was elected president of the Middle Tennessee Chapter of

BALL PLAYERS I Four alumni met by chance while participating in the 2010 Florida Senior Games' basketball division. From left, Dick Gillespie, Ron Plano '60, Tris Moore '68 and Tom Walters '67.

MASTER ATHLETE I Dave Marovich '66 won 16 medals (14 gold, 1 silver and 1 bronze) in 27 events at the 2009 Pennsylvania State Games and Keystone Games. He continues to compete and medal in many master's events across the country.

SPANISH STYLE I Spanish majors and roommates Connie (Farren '71) Montgomery, left, and Kathryn (Robinson '71) Harmon were reunited in Puerto Rico for Spring Break this year. Montgomery teaches Spanish in the Upper St. Clair School District and Harmon teaches English to Spanishspeaking students in Puerto Rico. They spent a week with their families at Harmon's house in Puerto Rico.

SPRING REUNION I Phi Sig sisters from the Class of '71 gathered in Savannah/Beaufort, S.C., at Vicki (Gott) Liggitt's home for a spring '10 reunion. From left: Carol (Doctor) Bowman, Ashley (Mainard) Weston, Sue Travis, Liggitt and Emmy (Starrett) Bocek.

DENVER DATE I Three 1971 classmates met in Denver, Colo., in April. From left: Linda (Miller) Kaufman, Carol (York) Weil and Karen (Reevie) McDonough. Kaufman and McDonough live in the Denver area. Weil resides in Amherst, N.Y., and was visiting her son in Boulder.

HAPPY BIRTHDAY | Class

of 1972 graduates (from left) Dale Abel, Don Kidner, Bill Tackett and Chuck Whitmire celebrated their 60th birthdays at the home of Dale and Nancy Abel on July 24, 2010. Dr. Michael Roland was an author of the paper winning the Best Paper Award at the 2009 meeting of the American Chemical Society, Rubber Division. Roland cowrote the paper "Flocculation, Reinforcement and Glass Transition Effects in Silica Filled Styrene-Butadiene Rubber." He works at the Naval Research Laboratory in Washington, D.C.

1975 | REUNION YEAR

Jane (Hinchliffe) Davies was awarded the Florida State Teacher of the Year award for the Association of Christian Schools International. Davies has taught for the past 14 years at Coral Springs Christian Academy. She lives in Coconut Creek with her husband, Steve, and two sons.

Toni Sulkowski retired after 35 years of service in public education with the Peters Township (Pa.) School District. She spent 15 years with the district as an elementary teacher, 13 years as an elementary principal and seven years as the district's director of technology. She is now an adjunct instructor for graduate education departments at Waynesburg and Duquesne universities. She also plans to start her own educational consulting business.

1976

Darrell Smith, a partner in the Tampa office of Shumaker, Loop & Kendrick, LLP, was named to "Chambers USA America's Leading Lawyers for Business 2010." Smith has a national practice with experience in with international transactions, provides services

GROVERS PATHS CROSS ON ST. CROIX

Grove City alums Vaughn Raup '72, left, and Donald Bailey '80 had an unexpected encounter on the island of St. Croix, U.S. Virgin Islands, in June. Raup was attending the 12th International Aquaponics and Tilapia aquaculture course, hosted by the University of the

Virgin Islands. He owns HotKoi in Conneautville, Pa., an ornamental koi farm, and plans to add tilapia, a food fish, to his operation. Bailey has been employed by the UVI aquaculture program for 23 years as a research specialist and is a course instructor. Alums can see their work at www.hotkoi.com or on a visit to the University of the Virgin Islands.

to venture capital interests, and represents companies in internal and external investigations. Smith also was selected by his peers to be included in The Best Lawyers in America 2011.

1977

Becky Zembower received the Anchorage Chamber of Commerce Gold Pan Award for distinguished community service by an individual. She is the director of human resources for NANA Management Services in Anchorage, Ala. e

1978

Rory Lubic was appointed vice president, purchasing, for The Timken Company. He most recently served as general manager, purchasing excellence.

1980 | REUNION YEAR

Kenneth Merchant received his second star and a promotion to major general in the U.S. Air Force. Most recently a brigadier general, he is currently stationed at Scott Air Force Base. Illinois.

Edward Suffern recently accepted a position as pastor at Redeemer Reformed Presbyterian Church in Queensbury, N.Y. He relocated back to the East Coast. **e**

1982

Robert McMunigle was named a partner in the firm McGill, Power, Bell & Associates, LLC. He has been with the western Pennsylvania firm for more than 25 years. He specializes in tax accounting and planning, business valuation, litigation support and succession planning.

Rebecca (Mumaw) Moyes was named regional education coordinator for autism by Pressley Ridge, headquartered in Pittsburgh. Moyes is responsible for assisting Pressley Ridge with the expansion of their services for students with autism/Asperger Syndrome. In addition, she will help provide professional development and consultation for staff, agencies and parents. She is the author of four books for teachers of children with autism/Asperger Syndrome and is a national and international speaker.

1983

Tom Langmyer is the author of "Lake Erie: History and Views," a book written to educate readers on the history of Lake Erie and the surrounding region. The book combines narration, factual summaries, maps and antique postcards from Langmyer's collection. The book is available at Grove City College's Crimson Connection downtown store.

1984

Dr. Alex Chafuen received the prestigious Global Leadership Award, co-sponsored by The World Congress of Families, The Bow Group and The Leadership Institute. The award was presented at Wellington College in the United Kingdom on April 2. Chafuen was recognized for achievements in the building of a new generation of leaders in the principles of free enterprise, limited government, strong national defense, and traditional family and moral values.

Dr. William Johnjulio was named chair of the department of family medicine for the West Penn Allegheny Health System in Pittsburgh. He will oversee residency education and help develop medical school education in family medicine, in addition to directing the department's clinical and administrative divisions. Prior, he was chair of the family medicine department and director of its residency program at UPMC Mercy Hospital.

Gail (Zehner) Martin completed a fourth book in the Chronicles of the Necromancer series, "Dark Lady's Chosen." It continues the cliffhanger in book three and is available as a book or ebook. Martin is finishing her next set of adventure books set in the world of the Winter Kingdoms.

1985 | REUNION YEAR

The Rev. John Dorr Jr. was the baccalaureate speaker for Erskine College and Seminary at its May commencement ceremonies in Due West, S.C., and also spoke at the Grove City College Homecoming Worship Service. He is pastor of Peachtree Corners ARP Church in Atlanta and earned his master of divinity degree from Erskine Theological Seminary. Cathie Ellison adopted two children: Alaysia, 2, and Treyton, 1. The family lives in North Canton, Ohio. William Hall saw his article, "Preparing Invention Disclosures,"

GUIDING HAND I Three alumni on staff with Apollo-Ridge School District in Armstrong County, Pa., helped to steer two students from their school to Grove City College. In front: freshmen Mark Schrecengost and Taylor Hunker. In back: High School Math Teacher Andrew Jones '07, Director of Curriculum and Instruction Matthew Curci '96 and Gifted Support Teacher Laurie (Kiebler '78) Martin.

GOOD SHOW I Fans and classmates of musician Bill Deasy '88 got their groove on at the Bill Deasy concert at Pittsburgh's Club Café in July. From left: Doug Yoho '88, Ramesh Santanam '89, Deasy, Chris Bryan '88, Sandra (Kressley '88) Jerich and Betsy (Deedrick '88) Suzio.

published in the April 2010 issue of Chemical Engineering Progress magazine.

1986

Ron Carter was named Business Person of the Year in 2010 by the Zelienople-Harmony Area Chamber of Commerce. Carter is president and executive director of the Strand Theater Initiative, which renovated and reopened the historic Strand Theater in Zelienople, Pa. Rick Newton is founder and president of Newton Consulting, an information technology and resource management consulting company based in Newton's hometown of Claysville, Pa. The company now has 40 employees, including hew hire David Andrews as vice president and director of the company's enterprise resource planning.

Kathleen (Weis) Yereb, a gifted education specialist for Loudoun County (Va.) Public Schools, became a National Board Certified Teacher in November 2009. Certification is achieved upon completion of a voluntary assessment program designed to recognize effective and accomplished teachers who meet high standards. She resides with her husband, **David Yereb '84**, director of intellectual disabilities for Northwestern Community Services, in Stephens City, Va.

1987

Jeff and Rebecca (Becker '88)

Deurlein have relocated to Chicago. Jeff is vice president of sales for Yeoman Chicago Pump, a division of Grudfos, based in Denmark. Rebecca accepted a teaching position at Naperville Central High School and also works part time as a writer. Their children, Rachel and Jonathan, attend Northern Illinois University.

Debra (Neal) Matherne, J.D., has rejoined the law firm Michael J. O'Connor & Associates in Frackville, Pa. She specializes in worker's compensation cases. Matherne is a member of the Pennsylvania, Dauphin County and American bar associations. She worked with O'Connor firm earlier in her career.

1988

George Sebolt is the new president of The Art Institute of Pittsburgh, effective July 2010. He joined the Pittsburgh institute after serving as president of The Art Institute of Washington (D.C.), where he helped in growing the school to more than 2,200 students.

Dr. Tammy (Caristo) Whitfield is now the superintendent of the Blairsville-Saltsburg (Pa.) School District. For the past five years, she served as assistant superintendent at the Chartiers Valley School District.

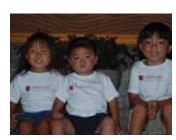

1990 | REUNION YEAR

and James Vaszily were married June 5, 2009, in Lorain, Ohio,

Carole Boring

The couple lives in Lorain. Carole is employed by the Defense Finance and Accounting Service in Cleveland and Jim is self employed as the chief investment officer for the family office, Rosemark Capital. **Chad Gregory** and wife Annmarie announce the birth of daughter Claire Helene on Feb. 1, 2010. The Gregorys live in Syracuse, N.Y. **e**

KRAMER KIDS I Posing in their Grove City College T-shirts are the children of Matt '95 and Melissa Kramer. The family returned from China in July after adopting Aiden, 2. From left, Brooke, 3 (adopted from South Korea in May 2008), Aiden and Tyler, 4 (adopted from China in February 2007).

1991

Tamara (Funk) and Brian '89 Ekis announce the birth of daughter Claire Anneliese on March 27, 2010. At home in North Huntingdon, Pa., Claire joins brothers Colin, 15, and Garrett, 12.

1992

Brian Davis and his wife, Kristel, announce the birth of son Elias Josiah, born July 23, 2009. The family lives in Etna, Pa. **Rebecca (Palmer) Gustafson** and her husband, Eric, are the parents of son Adam Jacob, born Feb. 2, 2010. **e**

1993

Hyune (Chung) Hand was profiled on March 7, 2010, in a "New York Times" column titled "The Boss." Hand has been with Dun & Bradstreet for 15 years and last year was appointed president of Hoover's, a D&B subsidiary. **e Richard Leech** and his wife, Jennifer, welcomed daughter Hannah, born April 25, 2010. **e**

1994

Dr. Gina (Miller) Blackburn and her husband, Rick, welcomed daughter Stevie Diane on June 14, 2010. Stevie joins brother Ricky at home in Grove City.

Bonnie (Roscoe) Turosak and her husband announce the birth of Natalie Jordan on Feb. 17, 2010.

1995 | REUNION YEAR

Richard DiFrischia was named a Rising Star by Pennsylvania Super Lawyers and Philadelphia Magazine as one of the top up-andcoming attorneys in the state of Pennsylvania. Each year, no more than 2.5 percent of attorneys in the state receive this honor. Jeffrey Lindquist was married Oct. 24, 2009. e Nicholas Matthews was appointed vice president and group executive – railcar operations for GATX Corporation in Chicago. He is responsible for GATX's North American railcar maintenance operations, engineering group, railcar service centers, field service activities and contract shop. Jennifer (Montgomery) and Philip '93 McMurray announce the birth of twins, Jackson Douglas and Alexa Rose, on Oct. 21, 2009. e

1996

Clark and Becky (Dunbar)

Bowersox, along with their three children, are living with college students this fall in the Coalition for Christian Outreach's Norristown Community House, a Christian community for students from Montgomery County College and Ursinus College. This is the first group of students to reside there. Matthew Boyle and his wife, Shelley, welcomed son Colin David on May 18, 2010. e

Karin (Kubrick) Johnson and husband Ray announce the birth of son Jace Paul on March 8, 2010. e Shannon (McCabe) Libengood and her husband, Ernest, welcomed son Brennan Kirk on April 7, 2010. Amy (Clingensmith) Mongiovi is an adjunct faculty member at Harrisburg Area Community College, teaching two sections of technical writing for fall 2010. She is also the marketing director for Chick-fil-A in Reading, Pa., and has a communications business.

Melissa Pinard and Robert Rossow were married May 30, 2010, in Virginia Beach,

Va. Melissa is editor of the William and Mary Alumni Magazine and Rob works for Northrop Grumman in Charlottesville. **Scott Reid** and his wife, Jean, welcomed son Owen Timothy on Oct. 2, 2009.

1997

and Nancy Mealey were married May 30, 2009, in Cambridge

Jeffrey Bailey

Springs, Pa. They now live in Sewickley. Jeff is an attorney in Pittsburgh. Nancy is an accountant. **Kristi (Simonsen)** and **Chad**

Bunovich welcomed daughter Elise Esther on May 1, 2010.

Jennifer (Sypherd) Chan and her husband, David, are the parents of son Micah James, born Feb. 24, 2010. e

Jamye (Shelleby) and Peter Doerfler are the parents of son Isaac James, born June 3, 2009.

Kristin (Olson) and Matthew Hackworth welcomed twins Elijah James and Lucy Joy on Sept. 21, 2009. The babies join sisters Elsie, 5, and Lillie, 3, at home in Springfield, Va.

Clair Smith accepted a position as assistant professor of economics at Saint John Fisher College in Rochester, N.Y. For the past three years, he was a lecturer at The Pennsylvania State University. Make a Gift to Grove City College. Gain an Income for Life.

Grove City College has launched a **gift annuity program**. Life income gifts such as charitable gift annuities and charitable remainder trusts can provide you with a lifetime income in exchange for a gift that will one day benefit Grove City College students.

A gift annuity is a **simple contract** between you and the College. In exchange for your gift of cash or stock, Grove City College makes regular payments to you, to you and your spouse, or to someone you name, for life. It's a great way to **increase your retirement income** and **give to students** at Grove City College. Some of the benefits to you can include a charitable income tax deduction when you make your gift, guaranteed annuity payments for life, save on capital gains tax, and savings on appreciated property you may choose to donate. You can even defer the start of your annuity payments to a later date and let the principle grow tax free.

To learn more about developing a gift annuity plan personalized for your needs and interests, please contact:

Marcus J. Fish '97, Director of Planned Giving

friends

T. Anderson, professor of accounting, died May 29, 2010.

Dr. William

He taught at Grove City College from 1992 to 2003 before retiring to Harrisonburg, Va. He was a Navy veteran who enjoyed a long teaching career. Survivors include wife Dorothy, two daughters, a sister and five grandchildren.

alumni babies

CONGRATULATIONS NEW PARENTS!

Grove City College welcomes your new bundle of joy. We want to send your newborn a Grove City College T-shirt. So between the feedings and late-night lullabies, be sure to send the Alumni Relations Office your child's name and date of birth. Shirts are available only in infant size.

Due to the popularity of the Alumni Babies feature, photos will be limited to babies under the age of 3 in Grove City College shirts only. Digital photos must be high resolution, 300 dpi. Please do not embed photos in the body of an e-mail message, but rather attach a high-resolution image. Send to Alumni Relations Office, Alumni Babies, 100 Campus Drive, Grove City, Pa., 16127 or alumni@gcc.edu.

RIGHT NOW... her world is spinning [24/7]

A senior majoring in mechanical engineering, **ANNA WARGULA** always planned to study writing. Now, she enjoys describing life—on land and sea—with math. Anna spent 12 weeks this summer in Cape Cod analyzing data on oyster larvae movement, one of just 30 students chosen worldwide for the Woods Hole Oceanographic Institution research fellowship.

Past secretary of the American Society of Mechanical Engineers student chapter, Anna is helping to plan the association's 2012 Human Powered Vehicle Challenge. Hosted by Grove City College and funded in part by *Full Circle* dollars, the competition inspires students to design the alternative vehicle options critically needed in underdeveloped countries.

Raised in Japan by missionaries, Anna plans to continue that work overseas...and to pursue a master's degree "underseas," specializing in ocean engineering.

Whatever you're doing, at this moment you can be certain there are students reaping the benefits of **FULL CIRCLE**, the Annual Fund for Grove City College. Your gift benefits scholarships, special academic events, campus improvements, leadership initiatives and many extra-curricular activities.

Don't you wish you had the time to focus on just one challenge? When you contribute to *Full Circle*, you make that wish come true for a bright young thinker.

Making a difference for our students every day

Make an impact **Mgm** gift today. Thank you!

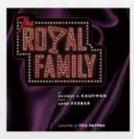

by making your

Use the enclosed envelope, call us at (866) 386-3422 or give online at www.gcc.edu.

Your gift will be applied to the July 1, 2010 – June 30, 2011 fiscal year.

ShowCase Series

A SPECIAL ARTISTIC SERIES PRESENTED BY GROVE CITY COLLEGE.

The Royal Family Pittsburgh Public Theater, Pittsburgh October 21, 2010 • 8 p.m. Ticket Prices: Grove City College Student - \$15

General Admission - \$25.75 Bus Transportation: Grove City College Students – free of charge • General Admission - \$10

B.E. Taylor Christmas Ketler Auditorium, Pew Fine Arts Center, Grove City College December 7, 2010 • 7:30 p.m. Ticket Prices: Grove City College Student - \$10 College Employees - \$15 • General Admission - \$20

Mary Poppins/Pittsburgh Broadway Series

Benedum Center, Pittsburgh January 22, 2011 • 2 p.m.

Ticket Prices: Orchestra/Directors Circle - \$79 First Tier - \$69 • Second Tier - \$50 Bus Transportation: Grove City College Students free of charge • General Admission - \$10

Pittsburgh Symphony Chamber Players "Russian Music Treasures" – Mikhail Istomin, Artistic Director

Ketler Auditorium, Pew Fine Arts Center, Grove City College

April 11, 2011 • 7:30 p.m.

Ticket Prices: Grove City College Students - \$5 Grove City College Employees - \$5 • General Admission - \$10

Remembrance | Αναμνηση

Looking back to the early years of one's life, things forgotten are revived, recalling memories that made impressions to our senses. These images surface through things seen, sounds of things heard, fragrances of aromas sensed, textures of surfaces touched and tastes of exotic foods.

My return to the Aegean island of Ikaria, the mythological island of the flight of Icarus, has ignited a new energy and enthusiasm now seen in my sculptures and paintings. When we departed Greece after World War II, I did not imagine that I had acquired a round-trip ticket.

The product of my work created here in Pennsylvania during the last five decades established the foundation that now supports my most recent works created in Ikaria. The steady development of technical knowledge and creation of concepts has given life to a new chapter of my most recent works.

I am pleased.

Peter Calaboyias

Grove City College Artist in Residence

Peter Calaboyias is internationally known for his large-scale minimalist bronze sculptures. One of his most recognizable works, "Tribute," was created for the 1996 Summer Olympic Games in Atlanta, Ga. "Blue Waters" (pictured) is a 58- by 68inch oil on canvas painting inspired by Calaboyias' childhood home on the Aegean island of Ikaria, Greece. The 2009 piece is part of "Windows to the Aegean," an exhibit of bronze sculptures and oil paintings that was shown at Chicago's National Hellenic Museum. "Blue Waters" is displayed at the Grove City College Area Artists Exhibit in the Pew Fine Arts Center Gallery through Nov. 5. "Windows to the Aegean" is displayed at the Lancaster Galleries in Lancaster, Pa., through Nov. 30.
